About

## Description

# Toddler Tales Business Overview

Toddler Tales is a UK-based personalised children's story subscription service currently in development.

We create weekly, age-appropriate stories tailored to each child's name, age, interests, and reading level.

### Our team is currently building:

- the story automation engine
- the Google Docs publishing workflow
- the delivery system
- the subscription management platform

We are preparing for a phased launch in 2026.

### What the service will offer

- Weekly personalised digital stories
- Optional monthly printed books
- Optional audio versions
- Age-specific templates
- Seasonal and birthday specials

## Business status

Toddler Tales is currently in the development and testing phase.

We are building the core infrastructure, templates, and automation workflows before opening to the public.
